IHE CONNECTATHON
EUROPE
THE HAGUE — APRIL 16-20 **2018**

IHE Connectathons provide a unique opportunity for vendors to test the interoperability of their products in a structured environment together with peer vendors. Participants test against multiple vendors using real-world clinical scenarios following the specifications of the IHE Integration Profiles.
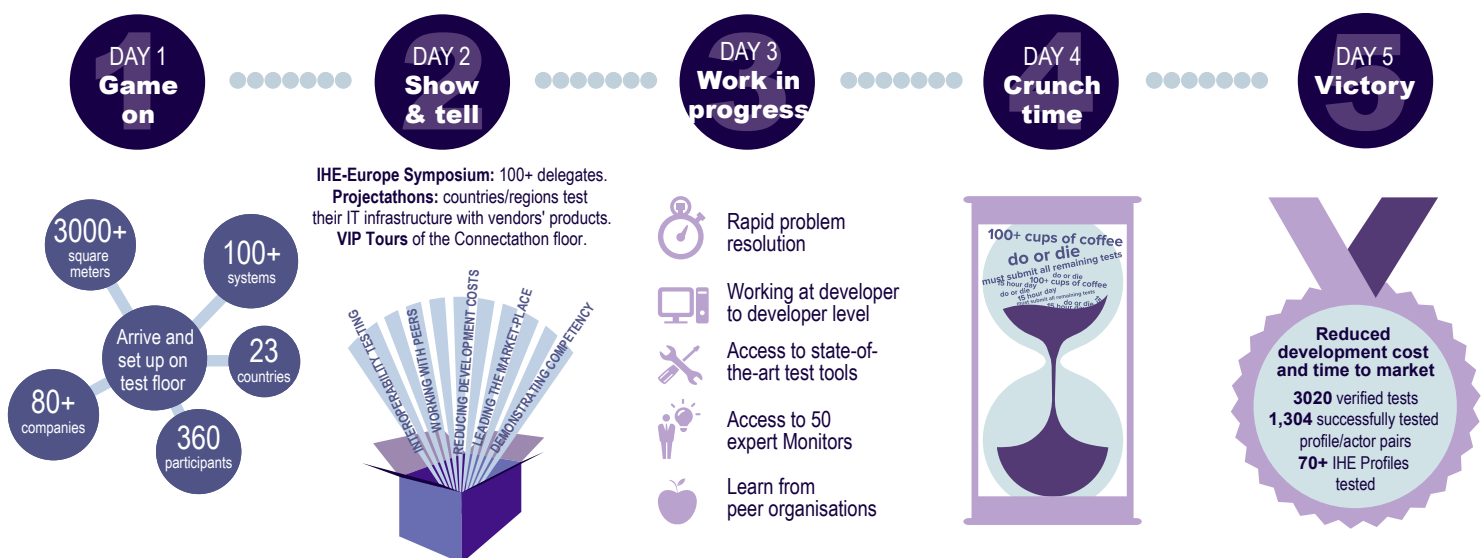

Registration period **December 1, 2017** to **January 15, 2018**

Why participate?

- Subject your products to interoperability competency testing.
- Improve confidence into product implementation using IHE Profiles.
- Ensure your products continue to meet the expanding base of implemented IHE Profiles in the industry.
- Share experiences with over 350 industry-leading professionals and learn from the Connectathon Monitors knowledge and expertise.

What are the benefits?

- Establish vendor competency in eHealth interoperability.
- Successful vendors are registered in the Connectathon Result Matrix. **connectathon-results.ihe-europe.net**
- Buyers use the IHE Product Registry to identify vendors whose products support IHE Profiles. Tenders now frequently specify recent independent IHE implementation testing. **product-registry.ihe.net**
- Reduced development cost: 5 minutes of test can save 5 months in-company effort and avoid integration issues at customer sites.

DAY 1 — Game on

- 3000+ square meters
- 100+ systems
- Arrive and set up on test floor
- 23 countries
- 80+ companies
- 360 participants
