IHE-Europe Welcomes Dr. János Vincze as New Vendor Co-Chair

June 2024: IHE-Europe is pleased to announce the appointment of Dr. János Vincze as the new Vendor Co-Chair. Dr. Vincze is an experienced leader in the medical software industry, bringing over 15 years of experience from startups to S&P 500 companies.

For the past five years, Dr. Vincze has been the Lead Product Owner for AW Server, GE HealthCare's advanced visualization platform for radiology. In this role, he has successfully led the product's interoperability and integration strategy, showcasing his expertise and leadership.

Dr. Vincze holds dual degrees in medicine and software engineering from the University of Debrecen in Hungary. During his PhD studies, he conducted advanced biomedical research using state-of-the-art computational methods and published more than 15 scientific papers.

Residing in Budapest with his wife, Dr. Vincze enjoys hiking with her and their two dogs in his personal time.

In his statement, Dr. Vincze praised his predecessor, Dr. Andreas Klingler, for his significant contributions within the organisation, and underscored the pivotal moment for IHE-Europe's future, stating: "Europe is currently undergoing a revolutionary phase in digital health, encompassing AI advancements and the establishment of the European Health Data Space. The coordinated adoption of established standards will be essential to optimize patient care, and IHE will play a crucial role in driving this mission forward."

He emphasised his commitment to fostering collaboration among industry stakeholders to achieve these goals: "IHE-Europe plays a vital role in shaping the future of digital health by promoting interoperability and integration in healthcare systems. I am honoured to join at this transformative time and look forward to working closely with the IHE community and beyond to advance our shared vision."

IHE-Europe looks ahead to the valuable contributions and insights Dr. Vincze will bring to his new role as Vendor Co-Chair.

About IHE-Europe: The mission of IHE-Europe is to improve patient care by advancing the interoperability of healthcare IT systems and the appropriate sharing of relevant information. Towards that end, IHE-Europe conducts education, testing, demonstrations and other activities promoting the deployment within Europe of systems compliant with the IHE Technical Frameworks developed by IHE International. IHE-Europe interacts with relevant governmental and non-governmental organisations in Europe. It also maintains close contacts with similar initiatives around the world.
