

# IHE-Europe 20th Anniversary

**Andreas Klingler**  
Vendor Co-Chair

## Greetings from the IHE-Europe Co-Chairs

About 20 years ago a small group of like-minded Health IT experts in Europe, who believed that following the concepts of IHE would help leverage the benefits of information technology for healthcare, came together to found IHE-Europe. Their aim was to promote interoperability in healthcare throughout Europe by making IHE known to the key stakeholders.

**Stéphane Spahni**  
User Co-Chair

In 2001 IHE-Europe organised the first Europe-based IHE Connectathon, which fitted into a small office space at the Journées Françaises de Radiologie (JFR) in Paris.

Over the next 20 years the IHE-Europe Connectathon has developed into one of the world's most successful Health IT interoperability testing events. Up to 2019 it took place annually in a different European location, expanding to require much larger facilities to host the more than 350 participants from approaching 100 vendors.

Due to the COVID-19 pandemic situation, 2020 and 2021 sees the IHE-Europe Connectathons performed as ONLINE events, still allowing an equally good interoperability test execution; though lacking the benefits of having like-minded engineers from different vendors in a single room. We are therefore looking forward to organising the IHE-Europe Connectathon as an in-person event in the coming years again.

The following pages remember the IHE-Europe Connectathons of the last 20 years. We hope you enjoy the memories and look to the future too.

# IHE-Europe 20th Anniversary

3

Karlien Erauw

We hope you will enjoy this overview of memorable moments, some joyful, some less joyful, but always in good spirit.

We are proud to be part of the IHE Community which consists of many volunteers whose passion it is to work together to achieve better healthcare data accessible for everyone, from supplier to patient.

While this booklet is giving you an impression of what has happened over the past 20 years and who has been contributing, each and every person in his or her own way, we are certainly looking optimistically to the next 20 years that will be full of new experiences, new colleagues and social friendships and taking Healthcare Information to the next step!

With kindest regards.

IHE-Europe MarCom Chairs.

Esther Peelen

## The IHE-Europe Connectathon

The annual IHE Connectathon affords all companies, large and small, the opportunity to test their own products, across a variety of domains including Radiology, Cardiology, Pathology and Laboratory Medicine, Patient Care Devices, Patient Care Coordination, Pharmacy, Dental and IT Infrastructure along with those of their peer vendors.

# 2001

Charenton-le-pont, France

## Key Figures

First European Event, 40m2 of Connectathon Floor with 18 systems and 30 participants from 12 companies.

First European Event with the objective to prepare demonstration of the IHE Profiles at the Journées Françaises de Radiologie (JFR).

## Milestones

IHE-Europe was founded and funded with the support of the EAR (European Association of Radiology), the French Society of Radiology (SFR), COCIR and GMSIH - Univ of Montpellier. IHE-France formed 2000/2001.

Inria ran Connectathon.

IHE-UK committee formed by Dr Nick Brown / Alan Budge within British Institute of Radiology April 2001 and ratified by BIR June 2001.

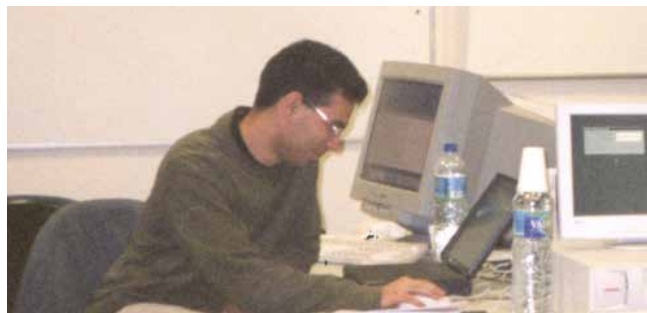

## New Profiles

SWF, PIR, KIN and CPI.
